"Solutions To Keep You Flying" SM

Programs Overview

Return to Lease - Inventory & Repair Solutions

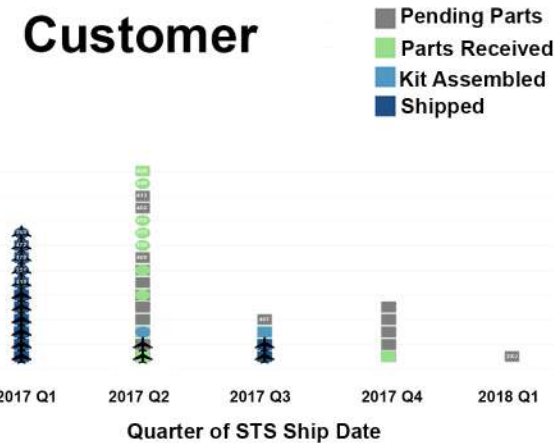

STC Component Solutions provides airlines, leasing companies and MROs complete inventory management solutions throughout its aircraft return to lease process. We have the working relationships, business intelligence, data analytics, repairs, engineering and support teams in place to realize significant cost savings when compared to the traditional material purchasing / repair processes.

Airlines and MROs have experienced an average of 25% cost savings by using the STS Component Solutions Return to Lease Program.

Vendor Managed Inventory (VMI) Solutions

STC Component Solutions' custom VMI programs are created to the customer's operational, financial and technological needs. Our award winning solutions are unparalleled in the industry and have a proven track record of driving efficiencies throughout supply chain organizations.

- Guaranteed Material Availability
- Increased Operational Efficiency by Reduction in Touch Points
- Inventory Cost Savings
- Elimination of Non-Value Added Activities

Custom Retrofit & Modification Solutions

STC Component Solutions has strategically aligned with airlines and MROs to identify cost saving solutions within the aircraft modification process. Our team has developed custom solutions to streamline the warehousing, logistics, purchasing and kitting for all modification programs.
